People have to find them physically by visiting hospitals' register books and reaching out to recovered donors' homes and sometimes they will be not available at their places and will be going to work. In this type of scenario, diseased persons' health gets worsened. This is expensive and will not work as effectively in emergencies.

PROBLEM

The proposed method helps

availability of donors. A donor has to register on the website

by providing their details. The

Brainstorm

Define your problem statement

Write down any ideas that come to mind that address your problem statement.

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
